

DIY Jellyfish Umbrella Craft

Supplies

- Clear Children's Umbrella
- White Tulle • Pink Tulle • White Wire Ribbon
- Thin White Ribbon • Hot Glue & Glue Gun
- Clear Packing Tape • Scissors
- Battery Operated Copper Wire String Lights

Instructions

1. Cover outside of umbrella with at least three layers of white tulle.
2. Use hot glue to carefully attach the edges of the tulle to the inside bottom edge of the umbrella. Trim off any excess tulle after gluing.
3. Bunch up pink tulle, use more hot glue to attach it to the inside of the umbrella.
4. Pleat white wire ribbon to create jellyfish tentacles and glue the tentacles to the bottom of the umbrella.
5. Glue pieces of thin white ribbon between the wired ribbon around the bottom of the umbrella.
6. Use hot glue to attach tentacles made from the string lights around the bottom of the umbrella and weave the extra lights through the tulle at the top of the umbrella.
7. Hide the battery pack underneath the umbrella and use packing tape to hold it in place.

THE SPONGEBOB MUSICAL:
LIVE ON STAGE!

Available on November 3
