

CRISPY RICE PAINTBRUSH SNACKS

SUPPLIES

- Prepared or pre-made rice cereal and marshmallow treats
- Popsicle sticks
- Yellow candy melts
- Orange candy melts
- Microwave-safe bowls
- Spoons
- Wax or parchment paper
- Optional: Unused clean, empty 1-quart paint can filled with colorful candies for display

INSTRUCTIONS

1. Start by unwrapping the cereal treats (if using pre-packaged treats) or cutting prepared cereal treats into rectangles approximately 1.75"x2.75" in size.
2. Insert a popsicle stick into one of the short sides of each of the cereal treat pieces.
3. Melt the candy melts in a heat-safe bowl according to package directions, one color at a time. One at a time, dip half of the treats into the melted candy approximately 1/2 of the way. Use a spoon to make it appear that it is dripping down. Set on wax or parchment paper to dry. Repeat with the other color of candy melts and the remaining treats.
4. Let the treats dry and harden completely. If desired, you can place them in the refrigerator to expedite the hardening process.
5. Optional: Display the treats in an unused, clean and empty paint can filled with candy.
